

The Model SB1026F Milling Machine is the same machine as the Model SB1026 except for the following:

- Added a 3-Axis Fagor Digital Readout (DRO).
- Longitudinal table travel reduced to 23½" due to DRO installation.

Except for the differences noted in this insert, all other content in the Model SB1026 Owner's Manual applies to this machine. Before operating your new milling machine, you **MUST** read and understand this insert, the entire Model SB1026 Owner's Manual, and the Fagor DRO Owner's Manual to reduce the risk of injury when using this machine.

If you have any further questions about this manual insert or the differences between the Model SB1026F and the Model SB1026, contact our Technical Support at (360) 734-1639 or email sales@southbendlathe.com.

⚠ WARNING

The safety labels provided with your machine are used to make the operator aware of the machine hazards and ways to prevent injury. The owner of this machine **MUST** maintain the original location and readability of these safety labels. If any label is removed or becomes unreadable, **REPLACE** that label before using the machine again. Contact South Bend Lathe Co. at (360) 734-1540 or www.southbendlathe.com to order new labels.
